

FDA Recall Impact VPAT™

Voluntary Product Accessibility Template®

Date: 06/25/15

Name of Product: FDA Recall Impact

Contact for more Information: Jules Trapp

The first table of the Template provides a summary view of the section 508 Standards. The subsequent tables provide more detailed views of the applicable subsection.

Summary Table

| <i>Criteria</i> | <i>Supporting Features</i> | <i>Remarks and explanations</i> |
|---|---|--|
| Section 1194.21 Software Applications and Operating Systems | Not Applicable | FDA Recall Impact is not a Software Application or Operating System. |
| Section 1194.22 Web-based Internet Information and Applications | Supports 7 of 7 applicable standards; 9 standards are not applicable. | Refer to Section 1194.22 VPAT for detailed explanations. |
| Section 1194.23 Telecommunications Products | Not Applicable | FDA Recall Impact is not a Telecommunication Product. |
| Section 1194.24 Video and Multimedia Products | Not Applicable | FDA Recall Impact is not a Video or Multimedia Product. |

| Criteria | Supporting Features | Remarks and explanations |
|--|---|--|
| Section 1194.25 Self-Contained, Closed Products | Not Applicable | FDA Recall Impact is not a Self-Contained, Closed Product. |
| Section 1194.26 Desktop and Portable Computers | Not Applicable | FDA Recall Impact is not a Desktop or Portable Computer. |
| Section 1194.31 Functional Performance Criteria | Supports 4 and supports with exception 1 of 5 applicable standards; 1 standard is not applicable. | Refer to Section 1194.31 VPAT for detailed explanations. |
| Section 1194.41 Information, Documentation and Support | Partially supports 2 of 2 applicable standards; 1 standard is not applicable. | Refer to Section 1194.41 VPAT for detailed explanations. |

Section 1194.22 Web-based Internet information and applications – Detail

| Criteria | Supporting Features | Remarks and explanations |
|--|----------------------------|---|
| (a) A text equivalent for every non-text element shall be provided (e.g., via "alt", "longdesc", or in element content). | Supported | Text alternatives are provided for all icons and graphical buttons. Map content is provided in redundant textual formats such as PDF and SVG. |
| (b) Equivalent alternatives for any multimedia presentation shall be synchronized with the presentation. | Not Applicable | No multimedia presentations are used. |

| Criteria | Supporting Features | Remarks and explanations |
|--|----------------------------|---|
| (c) Web pages shall be designed so that all information conveyed with color is also available without color, for example from context or markup. | Supported | The information conveyed with color is also available without color. |
| (d) Documents shall be organized so they are readable without requiring an associated style sheet. | Supported | Documents are marked up with semantic HTML code that is structured and ordered correctly without requiring an associated style sheet. |
| (e) Redundant text links shall be provided for each active region of a server-side image map. | Not Applicable | No server-side image maps are used. |
| (f) Client-side image maps shall be provided instead of server-side image maps except where the regions cannot be defined with an available geometric shape. | Not Applicable | No client-side image maps are used. |
| (g) Row and column headers shall be identified for data tables. | Not Applicable | No data tables are used. |
| (h) Markup shall be used to associate data cells and header cells for data tables that have two or more logical levels of row or column headers. | Not Applicable | No data tables are used. |
| (i) Frames shall be titled with text that facilitates frame identification and navigation | Not Applicable | No frames are used. |
| (j) Pages shall be designed to avoid causing the screen to flicker with a frequency greater than 2 Hz and lower than 55 Hz. | Supported | No pages cause the screen to flicker with a frequency greater than 2 Hz and lower than 55 Hz. |

| Criteria | Supporting Features | Remarks and explanations |
|--|----------------------------|--|
| (k) A text-only page, with equivalent information or functionality, shall be provided to make a web site comply with the provisions of this part, when compliance cannot be accomplished in any other way. The content of the text-only page shall be updated whenever the primary page changes. | Supported | Map content is provided in redundant textual formats such as PDF and SVG. |
| (l) When pages utilize scripting languages to display content, or to create interface elements, the information provided by the script shall be identified with functional text that can be read by Assistive Technology. | Not applicable | Content generated with javascript is accessible to assistive technology. |
| (m) When a web page requires that an applet, plug-in or other application be present on the client system to interpret page content, the page must provide a link to a plug-in or applet that complies with §1194.21(a) through (l). | Not applicable | FDA Recall Impact does not require plug-ins. |
| (n) When electronic forms are designed to be completed on-line, the form shall allow people using Assistive Technology to access the information, field elements, and functionality required for completion and submission of the form, including all directions and cues. | Supported | Accessible labels, instructions, and cues are provided for form fields and controls. |
| (o) A method shall be provided that permits users to skip repetitive navigation links. | Supported | Regions are marked up with semantic roles to allow users to jump between headers, footers, and main content areas. |

| Criteria | Supporting Features | Remarks and explanations |
|---|----------------------------|--|
| (p) When a timed response is required, the user shall be alerted and given sufficient time to indicate more time is required. | Not applicable | Timed events or timed responses are not required to use FDA Recall Impact. |

Note to 1194.22: The Board interprets paragraphs (a) through (k) of this section as consistent with the following priority 1 Checkpoints of the Web Content Accessibility Guidelines 1.0 (WCAG 1.0) (May 5 1999) published by the Web Accessibility Initiative of the World Wide Web Consortium: Paragraph (a) - 1.1, (b) - 1.4, (c) - 2.1, (d) - 6.1, (e) - 1.2, (f) - 9.1, (g) - 5.1, (h) - 5.2, (i) - 12.1, (j) - 7.1, (k) - 11.4.

Section 1194.31 Functional Performance Criteria – Detail

| Criteria | Supporting Features | Remarks and explanations |
|---|----------------------------|--|
| (a) At least one mode of operation and information retrieval that does not require user vision shall be provided, or support for Assistive Technology used by people who are blind or visually impaired shall be provided. | Supported | Operation and information retrieval does not require vision. Support for a variety of Assistive Technologies used by people who are blind or visually impaired is provided. |
| (b) At least one mode of operation and information retrieval that does not require visual acuity greater than 20/70 shall be provided in audio and enlarged print output working together or independently, or support for Assistive Technology used by people who are visually impaired shall be provided. | Supported | Operation and information retrieval does not require visual acuity greater than 20/70. Support for a variety of Assistive Technologies used by people who are visually impaired is provided. |

| Criteria | Supporting Features | Remarks and explanations |
|--|----------------------------|---|
| (c) At least one mode of operation and information retrieval that does not require user hearing shall be provided, or support for Assistive Technology used by people who are deaf or hard of hearing shall be provided. | Supported | Operation and information retrieval does not require user hearing. |
| (d) Where audio information is important for the use of a product, at least one mode of operation and information retrieval shall be provided in an enhanced auditory fashion, or support for assistive hearing devices shall be provided. | Not Applicable | Audio information is not used. |
| (e) At least one mode of operation and information retrieval that does not require user speech shall be provided, or support for Assistive Technology used by people with disabilities shall be provided. | Supported | Operation and information retrieval does not require user speech. |
| (f) At least one mode of operation and information retrieval that does not require fine motor control or simultaneous actions and that is operable with limited reach and strength shall be provided. | Supports with exceptions | Operation and information retrieval does not require fine motor control or simultaneous actions. Keyboard access is supported for most commands and functions. Alternative formats are provided for interactive maps that may not have full keyboard functionality. |

Section 1194.41 Information, Documentation and Support – Detail

| Criteria | Supporting Features | Remarks and explanations |
|---|----------------------------|---|
| (a) Product support documentation provided to end-users shall be made available in alternate formats upon request, at no additional charge. | Not Applicable | No product support information is provided to end users. |
| (b) End-users shall have access to a description of the accessibility and compatibility features of products in alternate formats or alternate methods upon request, at no additional charge. | Partially Supported | End-users can request a description of the accessibility and compatibility features of product by Phone, TTY, FAX, and Email. Information can be provided in alternative formats or methods upon request at no additional charge. |
| (c) Support services for products shall accommodate the communication needs of end-users with disabilities. | Partially Supported | Support services are available by Phone, TTY, FAX, and Email. |
